**1948 PRICE LIST**

— — — — —  
This year we are endeavoring to offer you many of the best and most popular selections from propagators in this country and a number of quite late importations from Holland and Belgium.

These selections include colors and types not seen before and have all the good points desired in a dahlia and the best in cut flowers.

**DANIEL DAHLIA**

# LARGE FLOWERING DAHLIAS

FD—Formal Decorative. ID—Informal Decorative.  
C—Cactus. SC—Semi-Cactus. IC—Incurved actus.

Due to a shortage of tubers on a number of late varieties we can offer these only as green plants or choice of root or plant. Plants are grown from cuttings of selected tubers and started in a propagating bed and then potted when rooted. These plants produce bushes and flowers equal to those grown from roots and will form clumps to carry over winter.

	Plant Tuber.	
ANNIE ROONEY, ID. Red with white stripes. Quite odd.....	---	.50
BALLEGOS GLORY, F.D. Mahogany red edged gold.....	---	.60

Our plants are grown on well drained irrigated land and potash fed for good solid tubers and guaranteed free from disease.

Each tuber is carefully inspected before shipment and guaranteed to arrive in good growing condition with on or more eyes or sprouts and true to name.

Should any prove otherwise same will be replaced if returned.

Full planting instructions and care of plants are sent with each order.

All orders over \$1.00 prepaid in the U. S.

Make all money orders and checks payable to C. M. Daniel.
